

Welcome to Schedule Planner

ABOUT SCHEDULE PLANNER

Schedule Planner is a tool to help students create a schedule by:

- Searching for open courses for the upcoming term
- Adding their breaks, work schedule, study time, and any other activities
- Generating schedule options that fit their specifications

When they've built a schedule that works for them, they send it to PeopleSoft to complete their enrollment.

After the schedule is imported, students will need to validate their schedules to check for prerequisites and then complete enrollment within PeopleSoft.

Any time you return to Schedule Planner, click "Generate Schedules" again to update the schedules with the most recent information.
