

COURSE TYPE TABLE

| | | |
|-----|------------------------------|--|
| CEL | Continuing Education Lecture | |
| CLB | Credit Laboratory | Those methods in which knowledge is acquired and/or applied in a learning activity for which credit is awarded. Credit Labs may be held in specialized classrooms such as laboratory or gyms. |
| CLN | Clinical | Those methods which provide the student an opportunity to acquire or apply previously acquired knowledge and skills in a supervised situation that relates to health care and approximates or duplicates the conditions under which knowledge or skills are used. |
| CLQ | Colloquium | A series of presentations by speakers who discuss a variety of subjects. |
| COR | Correspondence | Those methods in which the student is isolated from the learning situation by reasons of time, distance, and the like. These typically involve a systematic program of study which is conducted primarily through the use of written material. Instruction tends to be individualized. |
| DIR | Directed Studies | Those methods in which the student learns a set of skills or gains knowledge in a one-to-one situation from an instructor. This method involves direct personal contact and a high degree of interaction between the student and the instructor. |
| FTD | Full-Time Dissertation Study | A course used for full-time dissertation study after the student has completed the number of required credits for the dissertation, but is using University support services to complete the degree goal. |
| IND | Independent Study | Those situations in which the student acquires knowledge or skills through independent experiences. There is little or no formal interaction between the student and the instructor. |
| INT | Internship | A setting which provides the student with an opportunity to apply previously acquired knowledge in a supervised practical training environment. |
| LAB | Laboratory | Those methods in which knowledge is acquired and/or applied in a learning activity that is a controlled experiment or an artificial construct of reality for zero credit and is usually associated with a lecture course. |
| LEC | Lecture | Those methods which utilize a sequence of learning experiences arranged in a systematic order of predetermined knowledge. Lectures generally focus on the instructional needs of a group rather than of individuals. |
| MSM | Mass Media | Those methods in which instruction is provided for a general, non-targeted audience through mass media. |

| | | |
|-----|-----------------|--|
| PRA | Practicum | Those methods which provide the student an opportunity to apply previously acquired knowledge in a supervised individual situation in a field site which duplicates the condition of the work place in which skills or knowledge will be used. |
| REC | Recitation | Classroom instruction usually associated with a lecture which facilitates interaction between the student and the instructor. |
| SEM | Seminar | This method generally involves a group of persons who meet under the direction of an instructor to study topics of mutual interest and concern. |
| THE | Thesis Research | A directed study which involves a thesis or dissertation. |
| WRK | Workshop | Those methods in which the responsibility for learning is shared by the group members and the instructor(s) or in which the group applies prior knowledge in addressing a problem or issue. The duration of the activity will vary with the nature of the content and purposes of the group. |
