

PeopleSoft Announcement – Students/Faculty/Staff

Preferred Name Visibility Increased in PeopleSoft

As part of the University's ongoing effort to accommodate the use of a student preferred name throughout University systems, on April 5th, 2015, the primary name will be replaced by the preferred name on 28 pages in PeopleSoft. The preferred name will only display on these 28 pages if a student has taken the appropriate steps to add a preferred name; otherwise the primary name will display.
