Focusing on the United States, this course examines the relationship between law and politics both in general and with respect to specific substantive topics. Substantive topics will include civil liberties (freedom of religion, speech, press, the right to bear arms, the right to privacy), civil rights (equal protection, voting rights), and the rights of the criminally accused. Toward the end of the semester, we will examine in greater depth this last topic & the rights of the criminally accused & by delving into the nitty-gritty inner-workings of the New York lower court system. Through Yale Professor Issa Kohler-Hausmann's book *Misdemeanorland*, we will peer into the criminal justice experience of criminal defendants and the law and politics involved therein. Following an initial introductory period on legal reasoning, each class will include student presentations of legal arguments using a courtroom format.

Focusing on the United States, this course examines the relationship between law and politics both in general and with respect to specific substantive topics. Substantive topics will include civil liberties (freedom of religion, speech, press, the right to bear arms, the right to privacy), civil rights (equal protection, voting rights), and the rights of the criminally accused. Toward the end of the semester, we will examine in greater depth this last topic ; the rights of the criminally accused ; by delving into the nitty-gritty inner-workings of the New York lower court system. Through Yale Professor Issa Kohler-Hausmann;s book Misdemeanorland, we will peer into the criminal justice experience of criminal defendants and the law and politics involved therein. Following an initial introductory period on legal reasoning, each class will include student presentations of legal arguments using a courtroom format.
